## • The innovative combination of foam and robust rubber materials guarantees superior resting comfort with 28 mm of deflection

#### • Tightly sealed 30 mm foam in a rubber case is a breakthrough in the cubicle mat market

- The thermal insulation properties translate into maintaining the correct body temperature, which increases productivity
- Non-slip structure provides stability to reduce the likelihood of injury
- The design and easy assembly of the mattress allows it to be kept clean
- Customisable cubicle dimensions: 110-130 x 170-200 cm

### 10-year warranty

**NON-SLIP STRUCTURE** provides improved stabilisation to reduce the likelihood of injury. The foam layer is **definitely MORE comfortable**, which directly translates into **GREATER productivity**.

Easy to keep clean.

Rubber connection system developed by **Geyer & Hosaja LABS**.

**HIGH QUALITY MATERIALS GUARANTEE COMFORT** and the maintenance of the correct body temperature
